

EAC Committee meeting January 28th, 2015

Attending: Patrick Eddis, Zeta Cross, Stephen Heverin, Mara Baird, Chuck Bailey, Peter Wilson

Staff update - techno trash cans are still in pretty good utilization, they were recently cleaned up and new ones ordered. Regarding the grant for Cisco park, the township has not received all of the paperwork and material needed from the DCNR. Until that is received, we cannot move forward with any work on Cisco. We have three years in which to use the grant to complete the work.

BOC - still an open position on the EAC that needs to be filled. Looking for candidates

Discussed and approved the objectives for the year

- Cisco Park Grant - coordination with Parks & Red - work pending paperwork from DCNR.
- EAC Open House, Stephen Heverin volunteered his home for the first one of these events. It will focus on the riparian buffer planting that was done, but other sustainability enhancements done on the property will be on display as well.
- EAC Articles for the Sun (See below)
- EAC Township newsletters (See below)
- Community Day
- Assessment of next property/park for remediation (time permitting)
