

## EAC Meeting Minutes – September 2015

**Attending:** Torie, Mara Patrick, Stephen, Peter, Chuck

### **Minutes**

**BOC** - Municipal campus plan out for bid. The green roof of the library is out as a bid alternate. The library will be constructed to support a green roof, but the roof options are an alternate and will be decided later. Renovation of Seven Dolores also out to bid, this will be where the temporary home of the library and administration during construction of the new campus. Looking at options for tank car company property. Bus company still hasn't presented before planning commission.

**Staff Update** - no updates

**Cisco grant** - progress is being made in gathering required information for submission to DCNR to continue the project. Mara recieved updates from Derek about the new plantings and will work on updating the project plan.

**Community day** - Stephen submitted the registration for a table at community day. Will send out a sign up sheet for setup, manning the tables and break down. Decided on demonstration at table besides pamphlets to have a display show the impact of different silt levels on a pond. Rain barrel will be the give away

### **Tasks:**

- Chuck to determine if there was a previous study done above Cisco pond.
- Pete - Mason jars for demo of silt in the pond (3 jars)
