

Committee Members, BoC and Staff Liaisons Attending: Stephen H., Zeta C., Charles B., Derek C., Peter Wilson, Victoria, Patrick E.

Guest in Attendance: Aaron S.

Meeting Minutes:

Minutes from previous meeting approved

Staff Update : Techno trash can being picked up and replaced. New location TBD due to administration relocation for construction. Work underway in prep of moving the administration services to their new temporary location during construction for the municipal campus. EAC has the honor of being the last meeting held in the building!

BoC Update : Attended the Wissahickon Valley Watershed presentation on a collaborative approach to watershed restoration and protection, some good information presented.

Cisco Grant : Township staff is moving along with information requested and getting everything lined up to move forward.

EAC Activity planning :

- Draft an email blast for the township looking for a homeowner to volunteer
- Planning for a speaker either in the summer or fall.
- Articles pending review:
 - - Recycling Do's and Don'ts
 - Techno Trash can
- Next articles:
 - - Light pollution (Stephen)
 - Move of the EAC meetings and campus plan (include updating the location(s) of the techno trash cans)
 - MS4 related education
- Review the proposal for replacing the township lighting to provide input on any specific cobra heads called out in the proposal which would help contribute to reducing light pollution. The overall proposal to replace the existing street lighting will reduce energy consumption, but tied to that is an opportunity to also reduce light pollution.
