## Create your own labyrinth

Materials needed: Generous amount of masking tape

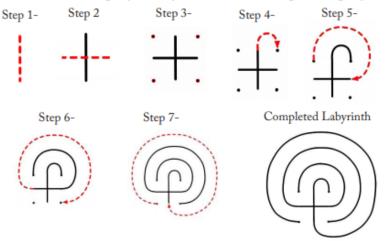

Flat surface

Volunteers to help

Tape measure and yard stick

## "Step by Step" to Lay Out a Three-Circuit Classical Labyrinth

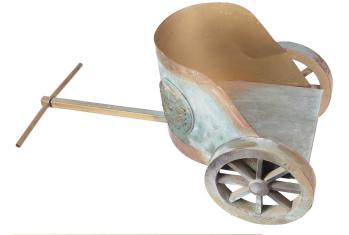

When practicing on paper, place the first two steps in the center of your page, leaving room for the extra circuits that are to come. (At step 4 if you move to the right, you will have a left turning labyrinth, if you move to the left, a right turning labyrinth.)

# Greek Mythology STEAM Projects

## Engineer a chariot

Engineer a chariot like they might have been seen in ancient Greek times. Race against another chariot to see whose design is the fastest.

#### Material suggestions:

Straw and/or Wooden Skewer Flat cardboard Cereal box 2 round caps (juice or wattle bottle) Glue and tape Scissors

- Use a bottom corner of the cereal box to create the chariot. Cut an equal square on each large panel, trimming the narrow panel and bottom to even out the box. Trim sides as you see fit. Shoe box or any other smaller cardboard box could be used.
- Cut cardboard to create a tongue for the bottom of the chariot . Glue tongue to chariot.
- Cut straw to match width of the bottom of the chariot. Tape it underneath the chariot.
- Punch hole in the 2 caps.
- Inset a wooden skewer into the caps through the straw.
- Secure the skewer in the caps. Can use playdough, tape, glue or other material.
