

Fairy Tale *Scavenger Hunt*

Cinderella

Cinderella was a kind and compassionate young woman, but unfortunately, she lived with her stepmother and two stepsisters, who treated her like a servant instead of as part of the family. Cinderella had to wear rags, and they made her clean the house constantly. Everyone was excited to attend the prince's ball, but of course, Cinderella was not allowed to go, and she was very upset. It was then that Cinderella's fairy godmother appeared. She asked Cinderella to bring her a large pumpkin, and magically transformed that into a magnificent carriage. Mice became elegant horses, lizards became footmen, and Cinderella's rags were turned into a beautiful dress, tiara, and shiny glass slippers.

Cinderella headed off to the ball, but with a warning from her fairy godmother that the enchantment would end at midnight. At the ball, Cinderella danced with the prince. She had so much fun that she forgot about the time; when the clock struck twelve, she fled the castle, leaving behind a glass slipper. The prince was determined to find the woman he had danced with. He traveled the kingdom, trying the slipper on every young lady's foot, including Cinderella's stepsisters. Of course, Cinderella was a perfect match, and she and the prince lived happily ever after.
