2022 SPRINGFIELD TOWNSHIP ARBOR DAY CELEBRATION **TREE RAFFLE!**

10AM-12PM ON SATURDAY, APRIL 30TH, 2022

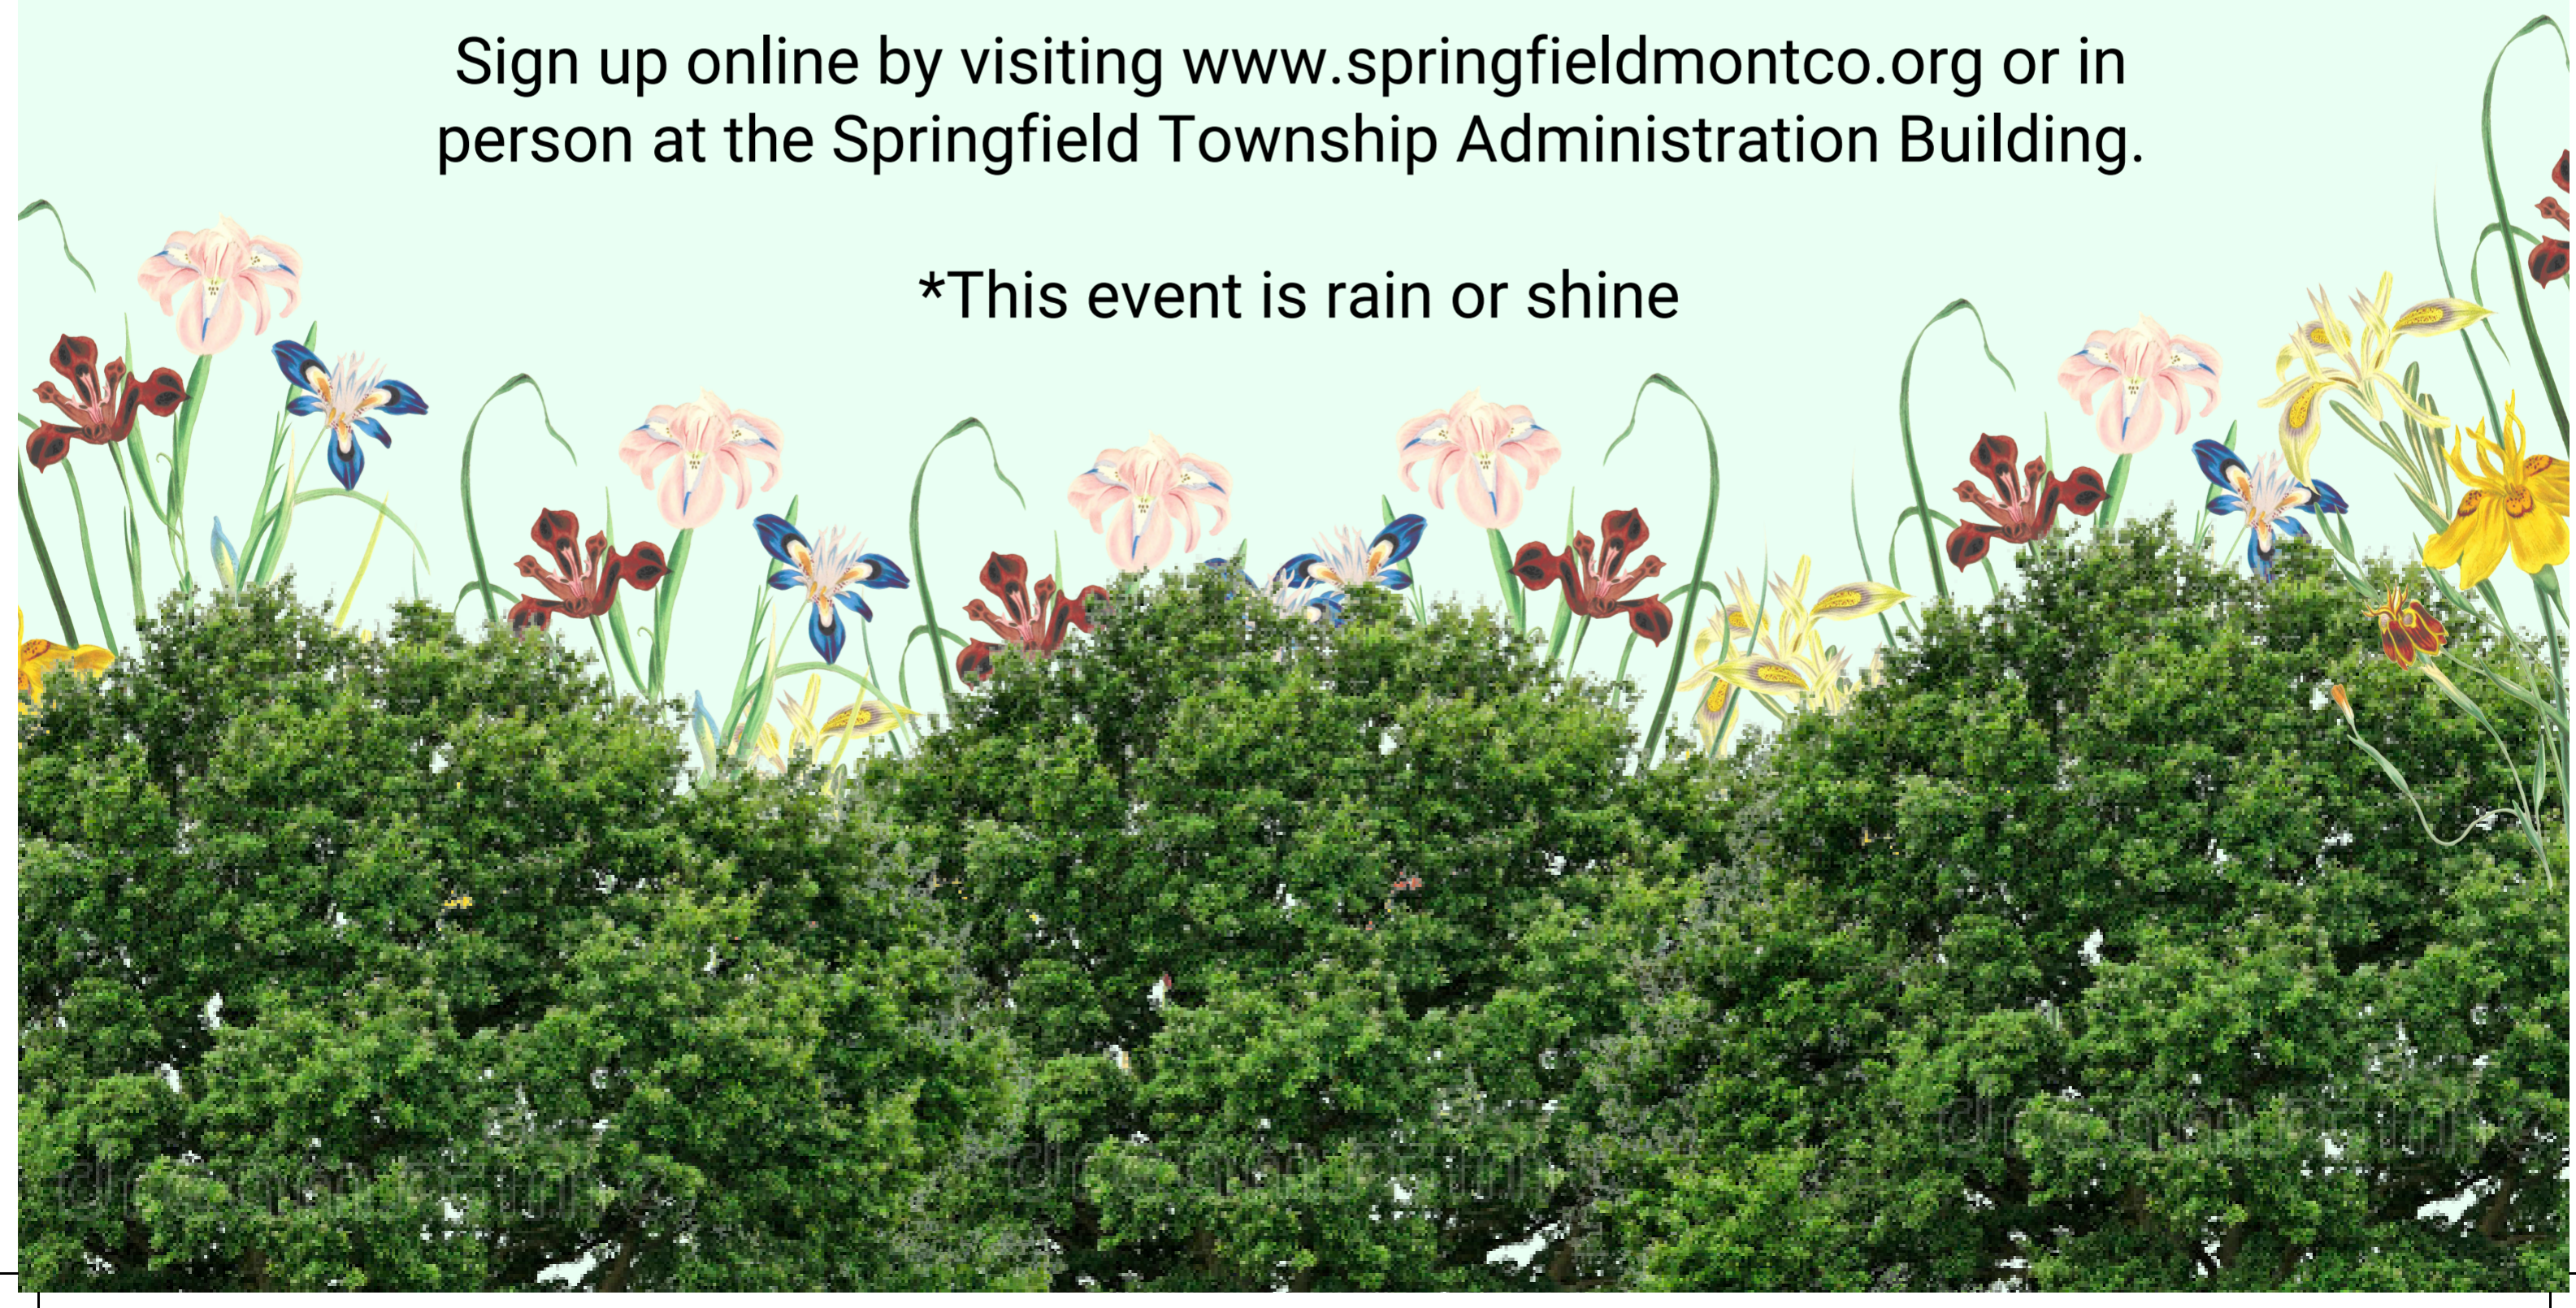

Springfield Twp. Municipal Complex
1510 Paper Mill Road, Wyndmoor, PA 19038

Springfield Township is celebrating Arbor Day by raffling off twenty 2-3 gal. trees to eligible Township households.

Households interested in entering for a chance for a free tree **must register in advance starting at 9am on 4/14/22.**
Winners will be selected at random at 4pm on 4/22/22.

Sign up online by visiting www.springfieldmontco.org or in person at the Springfield Township Administration Building.

*This event is rain or shine

AVAILABLE TREES

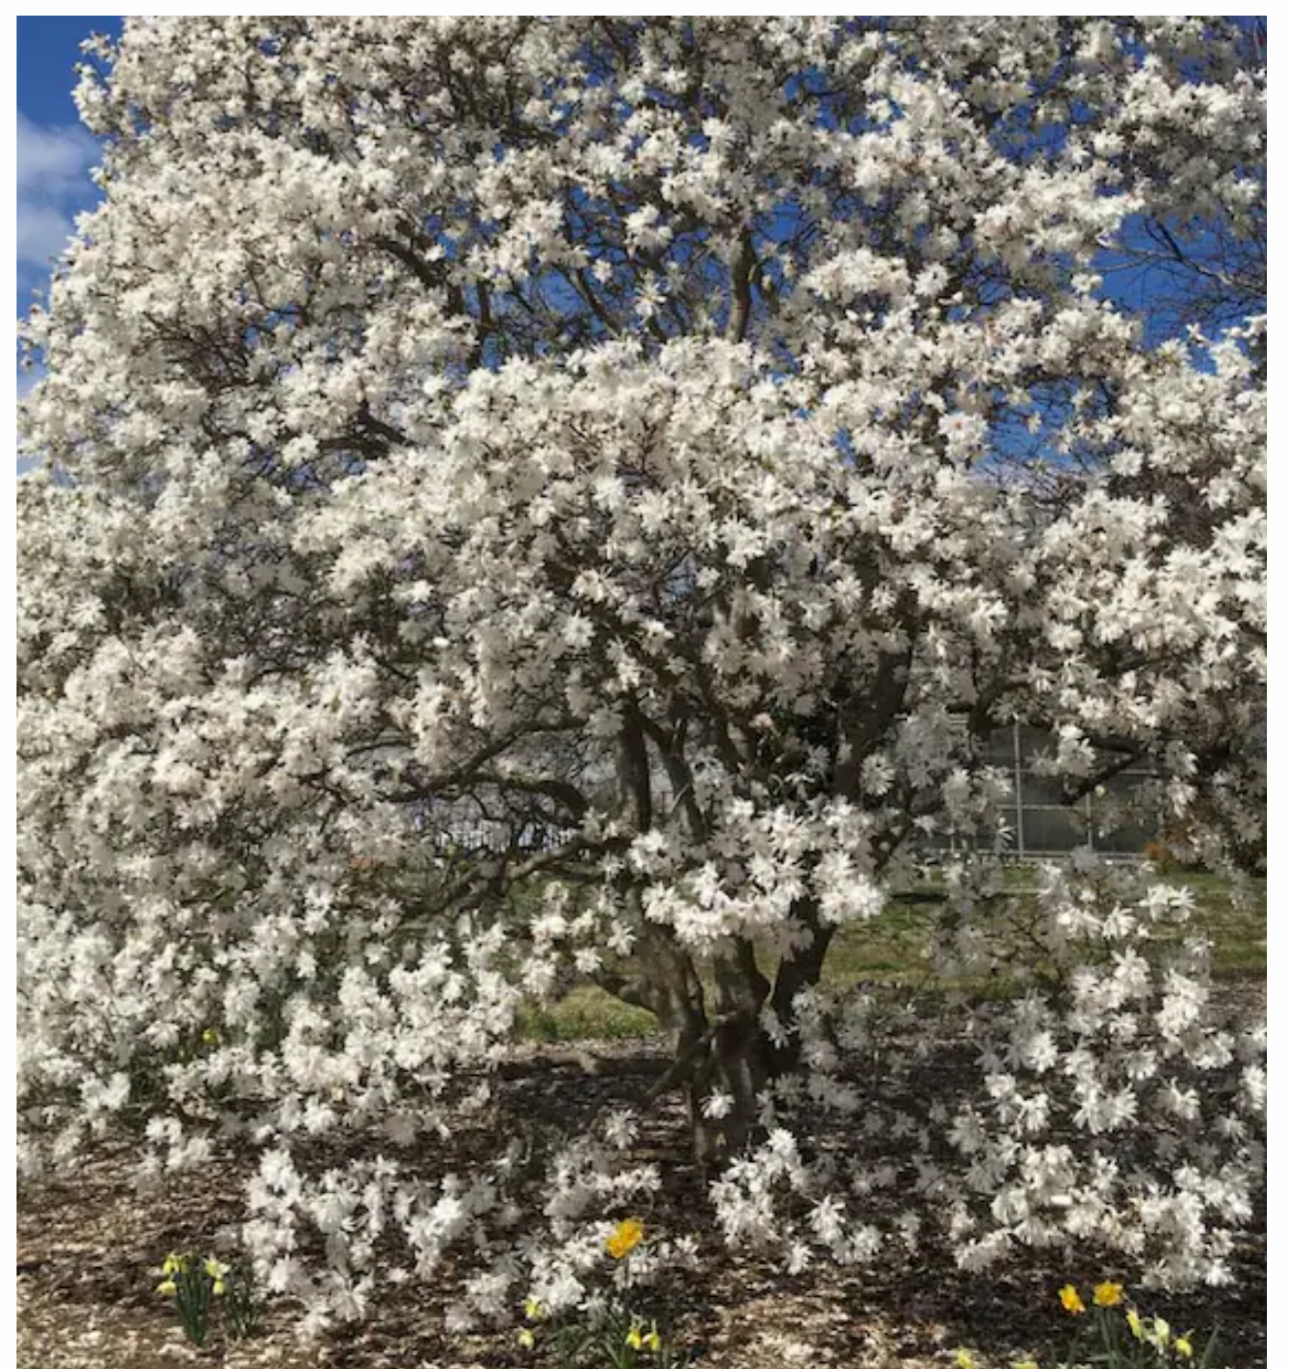

FLOWERING DOGWOOD 3 GALL.
(CORNUS FLORIDA "CLOUD NINE")

PROLIFIC, LARGE, PURE WHITE, OVERLAPPING PETAL-LIKE BLOOMS IN SPRING, DARK GREEN FOLIAGE IN THE SUMMER, REDDISH-PURPLE LEAVES IN THE FALL, AND GLOSSY RED BERRIES THAT PERSIST INTO WINTER MAKE THIS DOGWOOD A LOVELY ORNAMENTAL TREE FOR ALL SEASONS. A SHORT TRUNK, HORIZONTAL BRANCHES, AND A MODERATELY GLOBE-SHAPED CROWN ROUND OUT THE TREE'S HANDSOME APPEARANCE.

SWEETBAY MAGNOLIA TREE 2 GALL.
(MAGNOLIA VIRGINIANA)

THE SWEETBAY MAGNOLIA HAS GLISTENING DARK GREEN LEAVES WITH A SILVER UNDERSIDE THAT HAS A FROSTED APPEARANCE. THE 2"-3" CREAMY WHITE FLOWERS HAVE A LIGHT LEMON SCENT AND ARE VISIBLE IN LATE SPRING AND EARLY SUMMER. IT IS VERY ELEGANTLY SHAPED AND IS A GOOD CHOICE FOR A SPECIMEN OR PATIO TREE. BRIGHT SCARLET-RED SEEDED FRUIT RIPENS IN LATE SUMMER ATTRACTING MANY BIRDS. PREFERS MOIST, ACID SOIL WITH SUN TO PARTIAL SHADE. GROWS 10'-20' HIGH WITH EQUAL SPREAD.

AVAILABLE TREES

SWEET BIRCH 3 GALL. (BETULA LENTA)

AN ESTEEMED NATIVE SPECIES THAT HAS AN INCREDIBLE FALL DISPLAY OF BRIGHT YELLOW AND GOLD LEAVES. A VALUABLE TREE AND CLASSIFIED AS ONE OF THE LARGEST HARDWOODS IN NORTHEASTERN NORTH AMERICA. BARK IS A SHINY YELLOW TO GRAY-SILVER THAT SPLITS INTO CURLY STRIPS AND BECOMES A REDDISH BROWN AS IT GROW OLDER. THE STEMS OF THE YELLOW BIRCH CONTAIN A WINTERGREEN AROMA. GROWS 60'-75' HIGH AND WIDE. PLANT IN MOIST, WELL DRAINED, RICH, ACIDIC SOILS WITH FULL SUN TO PARTIAL SHADE.

AUTUMN BRILLIANCE SERVICEBERRY 3 GALL. (AMELANCHIER AUTUMN BRILLIANCE CLUMP)

IN SPRING, YOU'LL APPRECIATE THE DELICATE, FINE-TEXTURED CLUSTERS OF WHITE FLOWERS WHICH SIMPLY COVER THIS TREE. THIS OUTSTANDING FLOWER DISPLAY IS A WONDERFUL HARBINGER OF THE GROWING SEASON AND SUPPORTS THE EARLY NECTAR NEEDS OF BENEFICIAL POLLINATORS.

SOON, YOU'LL SEE THE FLOWERS GIVE WAY TO SMALL GREEN BERRIES THAT GRADUALLY DEEPEN INTO RED. THEY FINALLY MATURE A DEEP, RICH PURPLE IN EARLY SUMMER.
